

R09 ONE SHOT

B&W One-shot film Developer

R09 ONE SHOT is characterised by very good contour sharpness and high emulsion speed yield. The subject contrast can be influenced by varying the dilution of the concentrate.

Mixing: 1 part concentrate to 25 or 50 parts water at a temperature of 20° C.

Shelf life: The concentrate remains usable for at least 6 months once the bottle has been opened if the screw top is tightly closed. When diluted for use, **R09 ONE SHOT** only keeps for a short time and therefore should only be mixed immediately before use.

Developing times at 20° C Dilution 1 + 25 or 1 + 50 (Small tank processing): Agitation: Small tanks - continuously for the first minute, and then tilt every 30 seconds.

The film development times listed below are guidelines.

Through variations in processing the result can be influenced according to requirements. (see diagram 1)

Art.No.: AFRO15

Cont.: 500 ml

Corrosif, Dangereux pour l'environnement • Contient du p-aminophénol (EINECS # 204-616-2) et 2-5% de l'hydroxyde de potassium (EINECS # 215-181-3) • Provoque des brûlures. Toxique pour les organismes aquatiques peut entraîner des effets néfastes à long terme pour l'environnement aquatique. Possibilité d'effets irréversibles. • Conserver sous clef et hors de portée des enfants. En cas de contact avec les yeux, laver immédiatement et abondamment avec de l'eau et consulter

un spécialiste. Porter un vêtement de protection approprié, des gants et un appareil de protection des yeux/du visage. En cas d'accident ou de malaise, consulter immédiatement un médecin, (si possible, lui montrer l'étiquette). Éviter le rejet dans l'environnement. Consulter les instructions spéciales/la fiche de données de sécurité.

Corrosive, Dangerous for the environment • Contains 4-aminophenol and 2-5% potassium hydroxide • Causes burns. Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Possible risk of irreversible effects. • Keep locked up and out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Avoid release to the environment. Refer to special instructions/safety data sheets.

Ätzend, Umweltgefährlich • Enthält 4-Aminophenol und 2-5% Kaliumhydroxid - Verursacht Verätzungen. Giftig für Wasserorganismen, kann in Gewässern längerfristig schädliche Wirkungen haben. Irreversibler Schaden möglich. • Unter Verschluss und für Kinder unzugänglich aufbewahren. Bei Berührung mit den Augen sofort gründlich mit Wasser abspülen und Arzt konsultieren. Bei der Arbeit geeignete Schutzkleidung, Schutzhandschuhe und Schutzbrille/Gesichtsschutz tragen. Bei Unfall oder Unwohlsein sofort Arzt zuziehen (wenn möglich, dieses Etikett vorzeigen). Freisetzung in die Umwelt vermeiden. Besondere Anweisungen einholen/Sicherheitsdatenblatt zu Rate ziehen.

NOTE To permit the trouble-free recycling of plastic bottles and canisters, usually the leftover chemicals have to be removed beforehand. To do this, we recommend rinsing them out with water. So that this rinsing water does not pollute the effluents, part of the mixing water needed should be used for rinsing, and then added to the solution.)
